FIDE Rapid play Rules 2014

A.1 A 'Rapid play' game is one where either all the moves must be completed in a fixed time of more than 10 minutes but less than 60 minutes for each player; or the time allotted plus 60 times any increment is of more than 10 minutes but less than 60 minutes for each player.

A.2 Players do not need to record the moves.

A.3 The Competition Rules shall apply if

- a. one arbiter supervises at most three games and
- b. each game is recorded by the arbiter or his assistant and, if possible, by electronic means.

A.4 Otherwise the following apply:

- a. From the initial position, once ten moves have been completed by each player,
 - (1) no change can be made to the clock setting, unless the schedule of the event would be adversely affected.
 - (2) no claim can be made regarding incorrect set-up or orientation of the chessboard. In case of incorrect king placement, castling is not allowed. In case of incorrect rook placement, castling with this rook is not allowed.
 - b. An illegal move is completed once the player has pressed his clock. If the arbiter observes this he shall declare the game lost by the player, provided the opponent has not made his next move. If the arbiter does not intervene, the opponent is entitled to claim a win, provided the opponent has not made his next move. However, the game is drawn if the position is such that the opponent cannot checkmate the player's king by any possible series of legal moves. If the opponent does not claim and the arbiter does not intervene, the illegal move shall stand and the game shall continue. Once the opponent has made his next move, an illegal move cannot be corrected unless this is agreed by the players without intervention of the arbiter.
 - c. To claim a win on time, the claimant must stop the chess clock and notify the arbiter. For the claim to be successful, the claimant must have time remaining on his own clock after the chess clock has been stopped. However, the game is drawn if the position is such that the opponent cannot checkmate the player's king by any possible series of legal moves.
 - d. If the arbiter observes both kings are in check, or a pawn on the rank furthest from its starting position, he shall wait until the next move is completed. Then, if the illegal position is still on the board, he shall declare the game drawn.
- A.5 The Rules for a competition shall specify whether Article A.3 or Article A.4 shall apply for the entire event.
